ASPIRE ACCESS QUICK FACT SHEET

ASPIRE access is managed through the use of Banner security classes (some exceptions as noted). Student and HR classes are controlled by the respective areas. ASPIRE is programmed to look for the following university roles and automatically provides access to specific ASPIRE reporting to the persons in the roles (without the use of Banner security classes): Dean, Chair, Department Coordinator, Equipment Coordinator, and Space Coordinator. Some security classes have been created only for use within ASPIRE.

- **ban_gen_updt_space_c**
