12-27	You allow your personal doubts and fears to keep you from succeeding. You've probably had a few incomplete goals in the past, so you may have convinced yourself that you aren't self-motivated - and then you've made that come true. Break this harmful pattern now, and start believing in yourself again.
28-43	You're doing OK on self-motivation. You're certainly not failing - however, you could achieve much more. To achieve what you want, try to increase the motivation factors in all areas of your life.
44-60	Wonderful! You get things done, and you don't let anything stand in your way. You make a conscious effort to stay self-motivated, and you spend significant time and effort on setting goals and acting to achieve those goals. You attract and inspire others with your success. Treasure this - and be aware that not everyone is as self-motivated as you are!
