

Welcome to the Husky Pack!

We understand that this isn't your first college experience. We also know every campus is different. That's why we offer a transfer orientation designed to help you get the specific information you need to be successful. We have assembled a great set of resources. We will give you a chance to hear from a panel of returning students who started at Michigan Tech as transfer students. We have set up some ways for the incoming group of transfer students to interact with each other and get their questions answered. We invite you to participate in the orientation activities that we have going on around campus. We are excited to see what you do at Tech.
