Subject: Campus Parking Changes Effective 10/13/2026 (MC)

Body: Dear Michigan Tech Parking Permit Holders,

Starting Tuesday, October 13th, the following parking changes will take effect:

- Motorcycle parking on Hubbell Street will be closed and moved to the west end of Houghton Avenue (New sign has been installed).
- Metered spaces on Hubbell Street to the west of the Memorial Union Building will be closed.
- Metered spaces on College Avenue to the south of the Academic Office Building will be closed .
- The previous Black Lot 11, located between the Memorial Union Building and the Administration Building , will be closed. The new location of Lot 11 is west of Lot 1.
- Lot 27 will remain partially open, with 44 spaces available.

These changes are due to construction of the Chang K. Park Center for Student Wellness, between the Administration Building and the Memorial Union Building. Contractors will begin mobilizing to the site during the week of October 12, and installation of the construction fence will begin on October 13. These closures will remain in place for the duration of the project.

Please remain alert near the construction area, use the designated pedestrian walkways, and follow all posted safety directions and signage.

Parking updates, along with a current campus parking map, can be found at <https://www.mtu.edu/transportation/construction-parking/>. Project updates from Facilities Management will be posted at <https://www.mtu.edu/facilities/>.

If you have any questions or concerns about parking, please contact Transportation Services at 906-487-1441 or parking@mtu.edu.

Thank you for your patience and cooperation.
